

One Square Club is the most exclusive private members' club in the world. The Club's one square metre premises offers premium facilities, including a bar and events such as live music and live comedy. We pride ourselves on offering a luxurious and unique experience and ultimate exclusivity, with the Club having only one member at any given time.

Based in central London, the Club has been built in a bespoke wooden shipping crate allowing it to travel to different cities and countries. Rather than being in permanent residence at a single location One Square Club can travel anywhere in the world. Prospective members can request a location of their choice for One Square Club during the application process.
